AS AUTHOR OF NUMEROUS TEST BOOKS FOUR

BOOKS :

BIO-STATISTICS  
PREVENTIVE MEDICINE  
PATIENT MANAGEMENT  
MEDICAL ETHICS

Statistical data :US spends over \$12 billion dollars for medical care for mental disables.

3 years ago was 7 billion \$ almost double after 3 years. Please don't ask me how many millions in us are mental disabled. I will do my best say nothing but positive. I must clarify facts only . If you promise to change and agree to continue changing ,

I will give you golden answers.

If you check the list of the most educated country in the world US is 11th on the list. S. Korea ,Canada, Russia Japan and Ireland are world leaders in education

Japan has 125 million population , 1.1/4 million disabled and 10.000 mental defective,

Russia has 144.000.000 population.

Some statistics state that Ireland has no mental retarded, if any is visitor or immigrant.

1. Answer :

Every year 400.000 new born are mental defective. I can guarantee that I can reduce minimum to 200.000 if congress cooperate with my plan. I can reach less than 50 000 of new mental defective. I am

aware that any mental disabled child cost for

health care about \$10.000 per year times 3500 I will save us expenses \$3.5 billion annually just by doing revision of education and close follow ups.

Every year 900 000 American citizens die from cardiac heart arrest every year .Out of 900.000 100.000 die unnecessary ‘

As an author of preventive medicine and bio-statistic I can save life of 200 000 people, again by changes in management and education.

It is so simple , it is miracle .I cant wait to have interview with 5 Officials from congress.

Every year 500.000 new cases of cardiac arrhythmia are diagnosed . Close 200,000 die from arrhythmia due to:

Shortage of professionals and delayed therapy.

Many students where certified and job was arranged. Average \$3500 monthly salary minus 10% deduction for school and job arrangement.

Withing 5 years in Canada I never hear any strike

criminal attack, murders.

Canada immigrant citizens all have free health insurance.

I was Payed to attend school.

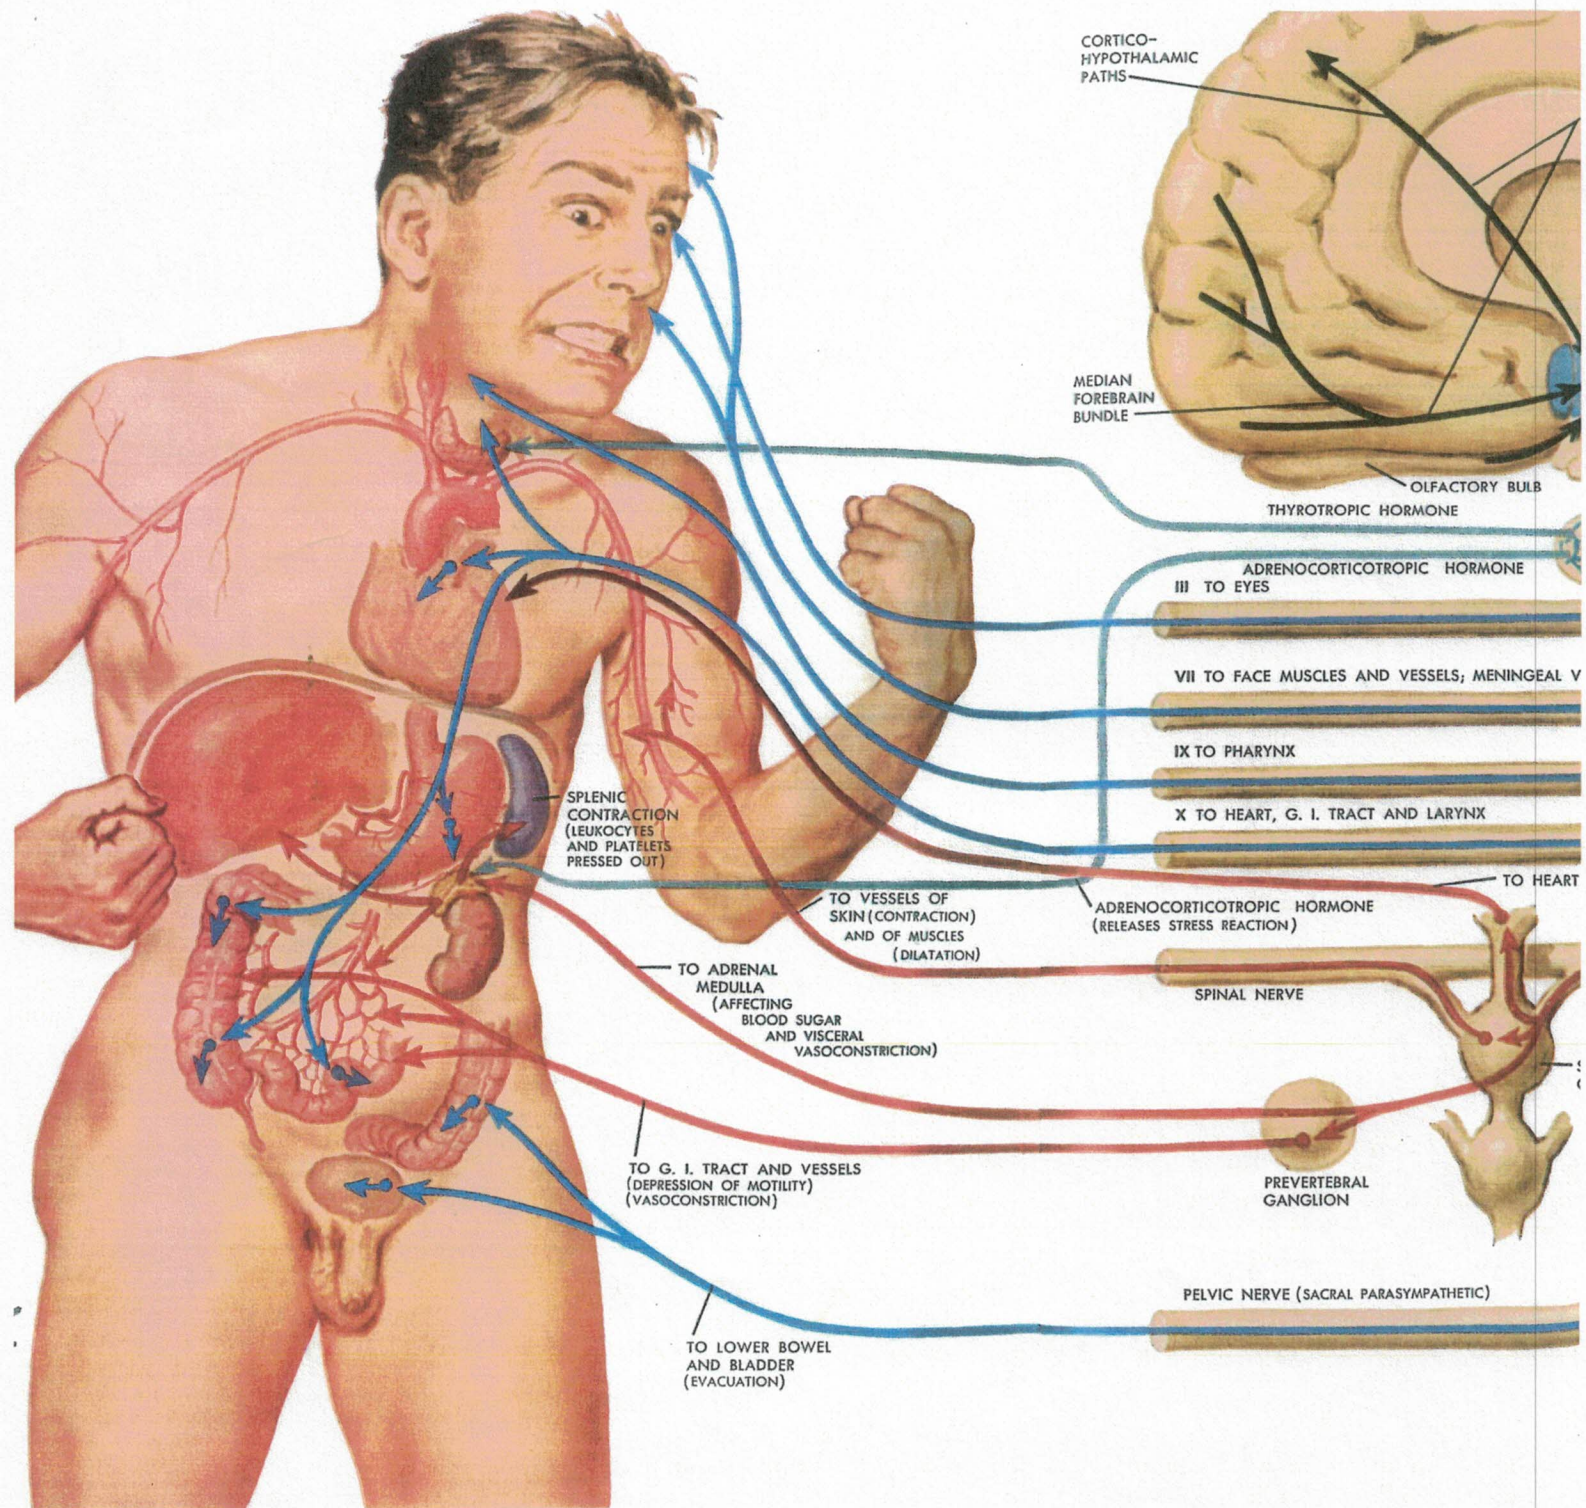

With with high salary everybody is preoccupied with something . I never saw homeless people , many single mothers with children we getting 4- \$5000 monthly; free accommodation and assistance providing to provide written details about job interview.

by ignoring it. It is not end of world.

Cognitive behavioral therapy LIDS to learn new pattern and forget old one in order to relive depression.

We shall remember that too high cortisol increase heart beats, tachycardia.

Iregular heart rate can cause cardiac arrest- death.

Surprisingly every year there are 800 000 cardiac arrest.

Every 20 seconds someone die from heart attack.

What should we do to prevent sudden cardiac death

Every time when any one say unpleasant statement my simplest answer it is not him (her) to blame it is parent to blame that did not educate his children.

We all have to change for better .
